

Eneko Iradier received the M.S. and Ph.D. degrees in Telecommunications Engineering from the University of the Basque Country in 2018 and 2021, respectively. He is part of the Radiocommunications and Signal Processing (TSR) research group at the University of the Basque Country (UPV/EHU), where he is an Assistant Professor in the Department of Computer Languages and Systems. In 2017, for a year and a half, he worked as a student researcher at the IK4-Ikerlan technology center, developing URLLC communications and ultra-low-consumption systems. During his doctoral studies, he completed an internship at the Communications Research Centre Canada in Ottawa. He is a co-author of more than 80 papers published in international journals and presented at conferences. He has served as a reviewer for several renowned international journals and conferences in wireless communications. He is an Associate Editor of the *IEEE Transactions on Broadcasting*. His current research interests include the design and development of new AI-based technologies for the PHY/MAC/RRM layers of wireless communication systems.
